

## Say Good Bye

Think you can call me up and everything's just fine  
well, that's where I draw the line.  
The last thing you did was cruel,  
Couldn't believe it , did you forget it? aha  
You had it all figured out now, didn't you?  
What you put me through.  
Time after time you made all those excuses  
well it's useless, aha

So I'm saying goodbye, see you later baby  
Don't know why I stayed so long  
Hypnotised by the love I thought you gave me  
wonderin why

Things that you said tryin to mess up my head  
I know what's true. Got caught up in a bad dream  
never ending, aha  
You played with my heart. I believed you.  
Time after time you made all those excuses  
you can't hurt me anymore

So I'm saying goodbye, see you later baby  
don't know why I stayed so long  
Hypnotised by the love I thought you gave me  
wonderin why

Tired of runnin away  
tired of runnin away  
tired of runnin away

So I'm saying goodbye, see you later baby  
don't know why I stayed so long  
Hypnotised by the love I thought you gave me  
wonderin why

Say goodbye, see you later baby  
don't know why I stayed so long  
Hypnotised by the love I thought you gave me  
wonderin why
